MAICS-98 Organization

Conference Chair

Oscar Garcia, Wright State University

Program Chair

Martha Evens, Illinois Institute of Technology

Local Arrangements

Jay deJongh, Wright State University

Program Committee

Thomas Ahlswede, Central Michigan University
Sheila Banks, Air Force Insitute of Technology
Raj Bhatnagar, University of Cincinnati
Gautam Biswas, Vanderbilt University
Douglas Blank, University of Arkansas
Ilene Burnstein, Illinois Institute of Technology
Vasant Honavar, Iowa State University
Frank W. Moore, University of Dayton
Gregg Oden, University of Iowa
Robert Port, Indiana University
Shekhar Pradhan, Central Missouri State University
Uta Priss, Indiana University
Anca Ralescu, University of Cincinnati
Christopher Riesbeck, Northwestern University
Jude Shavlik, University of Wisconsin-Madison
Robert Stufflebeam, University of Tulsa
Gregory Weber, Indiana University East

Sponsoring Organization

Wright State University, Dayton

Index

Ashford, A. J., 25

Baddorf, Debra S., 109

Banks, Sheila B., 117

Blank, Douglas, 91

Blasch, Erik P., 68

Brown, F. M., 75

Buchheit, Paul, 3

Chen, Zhixiang, 83

Chong, Ronald S., 10

Clark, Misti, 91

Cognitive Modeling for Decision Support in Naval Command and Control, 25

Cook, C. A., 25

Do Walls Compute After All? Challenging Copeland's Solution to Searle's Theorem Against Strong AI, 43

Dyson, Mark L., 117

Evens, Martha W., 109, 124

Experimental Investigation of Gladun's Theory of Automatic Classification, An, 75

Exploration of Implicit and Explicit Memory for Textured Shapes in the Haptic Modality, An, 33

Faster Algorithm for Learning Decision Trees with Module Nodes, A, 83

Finding Phrases Rather Than Discovering Collocations: Searching Corpora for Dictionary Phrases, 109

Freedman, Eric G., 17

Freedman, Reva, 124

Garcia, Oscar, 132

Hierarchical ART Network Model for General Pattern Recognition, A, 102

Hierarchical Categorization, 141

If Interdependent Preferences May Depend on Cognition, 58

Improving Means and Variances of Best-of-Run Programs in Genetic Programming, 95

Individual Differences in Working Memory as Strategy Selection: Implications for Computational Models of Scientific Discovery, 17

Interface Design Issues in a Solid Model Derivation System, 132

Jackson, A. G., 75

Jacobs, G., 75

Kalus, A., 25

Kilpatrick, F. Alex, 117

Kim, Jung Hee, 124

Lange Jr., William A., 132

Learned Multitarget Tracking by Feature Recognition, 68

LeClair, S. R., 75

Limbird, C. Karlyn, 33

MAICS-98 Organization, ix

Meng, Xiannong, 83

Modeling Single-Task Performance Improvement Using EPIC-Soar, 10

Moore, Frank W., 95

Neural Network-Based Cryptographic System, A, 91

Recovery and Common Sense Reasoning: Principles of Nonmonotonic Theory Recovery, 50

Relationship between Tutorial Goals and Sentence Structure in a Corpus of Tutoring Transcripts, 124

Ross, J. Oliver, 102

Santos Jr., Eugene, 117
