AAAI maintains compilation copyright for this technical report and retains the right of first refusal to any publication (including electronic distribution) arising from this AAAI event. Please do not make any inquiries or arrangements for hardcopy or electronic publication of all or part of the papers contained in these working notes without first exploring the options available through AAAI Press and *AI Magazine* (concurrent submission to AAAI and another publisher is not acceptable). A signed release of this right by AAAI is required before publication by a third party.

ISBN 978-1-57735-305-8

FS-06-07

Manufactured in the United States of America

Organizing Committee

Ari Jonsson (Cochair), NASA Ames Research Center/USRA
David Kortenkamp (Cochair), NASA Johnson Space Center/TRAC Labs Inc.
Robert Brown, Draper Laboratory
Gautam Biswas, Vanderbilt University

This AAAI Symposium was held October 13–15, 2006,
in Crystal City, Arlington, Virginia USA

Contents

Model-Unified Planning and Execution for Distributed Autonomous System Control / 1	
<i>Pascal Aschwanden, Vijay Baskaran, Sara Bernardini, Chuck Fry, Maria Moreno, Nicola Muscettola, Chris Plaunt, David Rijsman, and Paul Tompkins</i>	
Toward Distributing Autonomy over Robot Teams / 11	
<i>Anthony Barrett</i>	
Intelligent Rover Execution for Detecting Life in the Atacama Desert / 19	
<i>Vijayakumar Baskaran, Nicola Muscettola, David Rijsman, Chris Plaunt, and Chuck Fry</i>	
Mission Operations Planning with Preferences: An Empirical Study / 27	
<i>John L. Bresina, Lina Khatib, and Conor McGann</i>	
FDIR Strategies for Autonomous Satellite Formations — A Preliminary Report / 35	
<i>Charles Castel, Jean-François Gabard, Catherine Tessier, Bertrand Laborde, and Raymond Soumagne</i>	
Integrating AI Planning for Telepresence with Time Delays / 43	
<i>Mark D. Johnston and Kenneth J. Rabe</i>	
Procedures as a Gateway to Spacecraft Autonomy / 50	
<i>David Kortenkamp, R. Peter Bonasso, and Debra Schreckenghost</i>	
Sensor Data Qualification for Autonomous Operation of Space Systems / 59	
<i>William A. Maul, Kevin J. Melcher, Amy K. Chicatelli, and T. Shane Sowers</i>	
Configurable Components for Health Management of Space Systems / 67	
<i>Debra Schreckenghost, R. Peter Bonasso, and David Kortenkamp</i>
